2024 PROGRAM – Day 1

Wednesday, 23 October 2024

8.15am Registration opens

8.45am – 9.05am Plenary Room

Session 1

Introduction	Warren Bingham, Conference MC Aria Research
Welcome to Country	Uncle Allan Murray Local Aboriginal Land Council
Welcome and Official Opening	Ian Burgess MTAA

9.05am – 9.55am Plenary Room #MTAAPlenary

Session 2 – Keynote with Dr Daniel Nour

Founder of Street Side Medics & NSW Young Australian of the Year 2022, Dr Daniel Nour discovered his passion by addressing the needs of underprivileged and vulnerable members of the community. His ambition led to the first mobile medical clinic that uniquely addresses the multiple health disparities experienced by the homeless and alleviates the many burdens present in accessing healthcare today.

Join this session to hear Dr Daniel Nour's incredible story of passion, commitment and a strong sense of responsibility for providing healthcare to those in need.

Dr Daniel Nour
Street Side Medics

10.00am – 10.40am Plenary Room #MTAAPlenary

Session 3 – Ministerial Address

Address followed by Q&A with MTAA CEO, Ian Burgess

The Hon Ed Husic MP Minister for Industry and Science	Ian Burgess MTAA
---	----------------------------

10:45am – 11.30am Morning tea Exhibition

11.35am – 12.20pm

Plenary Room

#MTAAPlenary

Session 4 – Bridging Innovation and Regulation – AI in MedTech

Join us for a session where regulation meets AI MedTech innovation, exploring the future of medical device compliance. Discover how innovators can balance cutting-edge technology with evolving regulatory frameworks to ensure optimal outcomes for patients and the healthcare system.

Tracey Duffy

TGA

Mitchell Burger

Healthdirect

Jasjit Baveja, Chair

MTAA

11.35am – 12.20pm

Concurrent Room

#MTAAConcurrent

Session 5 – Clinical investigations – Challenges and Opportunities to Attract Clinical Studies to Australia

This panel session will explore the latest developments in the National One Stop Shop (NOSS) implementation, as well as workforce development and emerging decentralised clinical trials/tele-trials activities. It will pose questions regarding the impact of increasing requirements for reimbursement approval to adopt alternative study designs that enable comparative performance analysis and journal publications of relevant findings.

Bernadette Aliprandi-Costa

Department of Health and
Aged Care

Deborah Bell

Manoj Sridhar, Chair

L.E.K. Consulting

12.25pm – 1.10pm

Plenary Room

#MTAAPlenary

Session 6 – Prescribed List Reforms – Where are we now and where are we headed?

Discussion about the current management of the Prescribed List, future reforms, and what industry should know.

Andrew Rintoul

Prescribed List Reform Taskforce
Department of Health and Aged Care

Kristy Hardy, Chair

Johnson & Johnson MedTech

12.25pm – 1.10pm

Concurrent Room

#MTAAConcurrent

Session 7 – The Future of Neurostimulation

This panel session will discuss innovations coming down the pipeline for the neurostimulation industry. Will brain-computer interfaces (BCI) live up to the promise or struggle to find clinical significance? Are there other bottlenecks in technology and what opportunities await new entrepreneurs?

Prof Hugh McDermott

DBS Tech | University of Melbourne

Ludovic Lablat

NeoBionica

Peter Single

Saluda Medical

Yan Lin Lye, Chair

Venture Studio

Brett Kensett-Smith

Intrinsika

1.10pm – 2.10pm

Lunch

Exhibition

2.10pm – 3.05pm

Plenary Room

#MTAAPlenary

Session 8 – The Future of Healthcare

AI, deep brain stimulation, Augmented Reality and other groundbreaking digital technologies, and the skills required to revolutionise the future of healthcare. How can the multiple stakeholders in the healthcare ecosystem collaborate for improved patient access to care?

Prof Farah Magrabi

Macquarie University

Warren Bingham

Aria Research

Harry Iles-Mann

Consumer Advocate, Department of Health and Aged Care Advisor

Prof Hugh McDermott

2.10pm – 3.05pm

Concurrent Room

#MTAAConcurrent

Session 9 – Evidence Requirements for the Prescribed List

Striking the right balance on evidence requirements for the Prescribed List'. Sub-blurb – 'The evidence requirements published in the draft Prescribed List Guide in December 2023 set a high bar even for devices that are only seeking to list in the same group and the same benefit on the PL. The industry is concerned that the requirements are very difficult to meet and are much higher hurdles that in comparable overseas jurisdictions. What drives the requests by ECAGs and MDHTAC for these evidence requirements? What risks are they trying to mitigate? How do they fit with the efficacy and safety assessments of the TGA? This session will discuss these issues and more with chairs of key committees and the Department.

Terry Campbell

Chair, Medical Devices and Human Tissues Advisory Committee

Peter Lewis

Chair, Prescribed List Hip and Knee Expert Clinical Advisory Group

Sarah Botros, Moderator

Stryker

Irina Tsyganova

Department of Health and Aged Care

3.05pm – 3.35pm

Afternoon tea

Exhibition

3.35pm – 4.15pm

Plenary Room

#MTAAPlenary

Session 10 – In Conversation with the TGA

Hear the latest about the regulatory landscape as MTAA's Jas Baveja interviews Tony Lawler from the Therapeutic Goods Administration.

Prof Anthony Lawler

TGA

Jasjit Baveja, Interviewer

MTAA

4.15pm – 5.05pm

Plenary Room

#MTAAPlenary

Session 11 – Fortifying Health Data

This session aims to share the value of health data and discuss the current health data governance challenges regarding privacy and cyber security. How to ensure a balance between data privacy & security with access for innovation and development.

James McKay

Australian Digital Health Agency

Senthil Gurumoorthi

AWS Health Care Life Sciences

Andrea Ratsch

Johnson & Johnson, MTAA PWG Co-Chair

Dalvin Chien

Mills Oakley

Paul Davies, Chair

Abbott, MTAA Cyber Security Working Group Chair

5.05pm – 5.10pm

Plenary Room

Closing remarks

5.15pm – 7.15pm

Welcome Reception | Pre-dinner Drinks

Exhibition

Hypothetical – Access to Growth Finance for MedTech Commercialisation

Taking place in the Exhibition space, this session will be an entertaining and insightful look into financing the MedTech commercialisation journey. From early-stage angel investment, venture capital and private equity, to ASX listing and potential acquisition, this hypothetical session will explore the critical early stages to help these startups access funding to grow, consolidate and succeed in the market. Delegates can enjoy this session during pre-dinner drinks.

7.15pm

MTAA MedTech Industry Awards Dinner

This is the MTAA MedTech Industry's night of nights! Enjoy a relaxed and entertaining evening hosted by **Claire Hooper**, whilst celebrating and acknowledging the incredible individuals, companies and technology of our industry.

2024 PROGRAM – Day 2

Thursday, 24 October 2024

8.00am Registration opens

8.30am – 8.40am Plenary Room #MTAAPlenary

Welcome
Warren Bingham, Conference MC
Aria Research

8.40am – 9.25am Plenary Room #MTAAPlenary

Session 12 – Ministerial Address

The Hon Anne Ruston
Shadow Minister for Health and Aged Care

9.30am – 9.55am Plenary Room #MTAAPlenary

Session 13 – Empowering Patients: Voices and Advocacy for Better Healthcare

Patient advocacy plays a critical role in shaping the future of healthcare. Our distinguished speakers will share personal stories, highlight successful advocacy initiatives, and explore strategies for amplifying patient voices. Join us to learn how empowered patients can drive positive change, improve healthcare outcomes, and foster a more patient-centered healthcare system.

Rozalina Sarkezians
Health Industry Hub

10.00am – 10.50am Plenary Room #MTAAPlenary

Session 14 – MedTech Sustainability

With the growing awareness of the environmental damage and health risks of micro plastics, this panel session explores opportunities to reduce and reuse waste in the medical product sector – from alternative raw materials behind plastics to repurposing single use plastics devices.

Jane Crowe
Cardinal Health

Leonie Walsh
Solving Plastic Waste CRC

Forbes McGain
ReResp | ActiveMask

Dr Thava Palanisami
University of Newcastle | Kelpy

Julia Farrington

Exhibition

11.25am – 12.10pm

Plenary Room

#MTAAPlenary

Session 15 – Leveraging Value Based Procurement for Greener Healthcare

Value Based Procurement is an approach to delivering high quality and sustainable healthcare by placing patient outcomes at the certain of purchasing decisions. However, with the environmental impacts of healthcare becoming an area of proposed reform in Australia, Value Based Procurement can play a role on supporting greener healthcare. This session will unpack the current application of VBP and its increasing ability to impact on environmental outcomes in healthcare. 2.05pm – 2.50pm

Plenary Room

#MTAAPlenary

Session 19 – Leveraging the Power of Digital Health Effectively

While Australia has made major strides integrating digital technology into healthcare, there are still a lot of potential gains for the Government to unlock. Industry and Government need to ask “Is digital technology genuinely helping to improve health care access and are the benefits making its way to patients? What measures are in place to justify its effectiveness of digital technology integration into healthcare? And is Government effectively harnessing the power of AI and Data?” Answering these questions from a Government and Industry perspective, this 45-minute session will discuss how we can better leverage digital technology in our healthcare system.

The Productivity Commissioner will discuss recent Productivity Commission reports: Advances in Managing Healthcare Productivity; and Leveraging Digital Tech in Healthcare.

Catherine de Fontenay

Productivity Commissioner

2.55pm – 3.55pm

Plenary Room
